Subject Index to Volume 6

Acute progressive glomerulonephritis, 1
Amelanotic malignant melanoma, 351
Arteriolar lesions in renal biopsy material, 185

Biopsy material, processing of, fast method for, 347
Bronchopulmonary neuroendocrine neoplasms, 15

Calcium hydroxyapatite crystals, intraluminal, in breast carcinoma, 9
Cardiac myxoma, 69
Celiac disease, small intestine mucosa in, 295
Cervix, squamous epithelium of, tannic acid binding in, 275
Chondroid syringoma, 153
Cilia, respiratory, serial sections of, 331
Cilia syndrome, immotile, 45
Ciliated cells from renal tubular epithelium, 1
Collar button nuclei, 255
Crohn's disease, epithelial cell lysosomal inclusions in, 39
Cytoplasmic vacuoles, 359

Electron imaging, low temperature backscattered, 239
Epithelioid mesothelioma, occluding junctions in, 177
Epoxy sections, large spurr, reembedded areas of, 247

Fresh-frozen tissue, use of in diagnostic transmission electron microscopy, 89

Gallbladder, pleomorphic carcinoma of, 29
Glandular schwannoma, 167

Hepatocellular carcinoma, globoid fibrillar inclusions in, 265
Honeycomb structures in tumor cells, 99

Intranuclear dense granules, cytochemistry of, 221

Kidney, cilia in, 285

Legionella Pneumophila, pleomorphism of, 117
Lymphocytes, ribosome-lamella complex of, 161

Metastases from retroperitoneal paraganglioma, 83
Mitochondria, neurosecretory granules in, 259
Muscle biopsies, crystalloid structures in, 105
Myelocytic leukemia, chronic, 307

Neuroendocrine carcinoma of skin, 141

Osteogenic sarcoma, human, 51

Pulmonary toxicity, amiodarone, 199

Sarcomas of tendons and aponeuroses, 209
Small intestine mucosa in healthy children and adults, 131
Sublingual tumor, 233

Tumor, small cell, 341

Uterus, placental site trophoblastic tumor of, 319
